To the Admissions Committee,

19th of March, 2024

It is my privilege to write this letter of recommendation for Osborne Aigbiremolen, a remarkable individual who has been an integral part of our organization, e-Byte Africa. As a co-founder of our B2B SaaS agency specializing in providing websites and A.I School Management Systems for private K-12 educational institutions in Nigeria, I have had the distinct pleasure of working closely with Osborne and witnessing his exceptional qualities firsthand.

Despite his youthfulness at the age of 17, Osborne's commitment, technical prowess, and dedication to our cause have been nothing short of exemplary. His ability to navigate complex challenges with grace and innovation speaks volumes about his character and potential. Osborne's unwavering focus on impact over financial gain underscores his genuine passion for leveraging technology to drive positive change in education. I have no doubt that his exceptional abilities and relentless drive will continue to serve him well in his academic pursuits and beyond.

In conclusion, I wholeheartedly endorse Osborne Aigbiremolen as an outstanding candidate for your esteemed institution. His remarkable talents, coupled with his exceptional character, make him a truly deserving candidate who will undoubtedly excel in any academic or professional endeavor he chooses to pursue.

Sincerely,

Success Azubogu,
Co-founder, e-Byte Africa.
